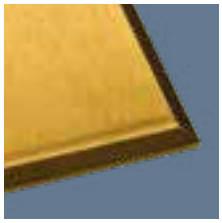
4 DESIGNER STYLES
TO DEFINE YOUR LOOK

MEMOIRE

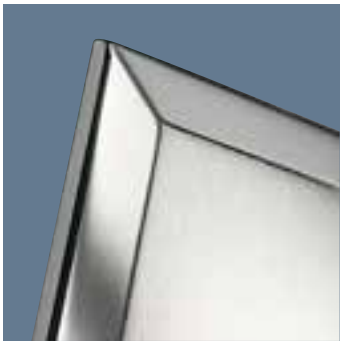


Whether mirror-polished, brushed or satin-finish, the Memoire wiring accessory is distinguished by numerous refined details: teardrop toggles, chamfers, visible screws, round push-buttons with knurled bezel.

EPURE

Lines that echo the perspective of spaces, straight edges and sharp corners, the elegant simplicity of its toggle levers are designed for minimalist interiors with an assertive touch.

FUSION



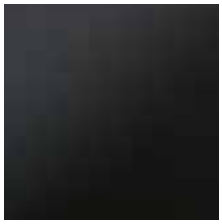
Fusion oozes versatility, combining straight or grooved wide chamfers, large handles or bezelled push-buttons, etc. It can also be enlivened with beading, and simple or elaborate chasing.

RETRO

A bold design that combines contemporary and vintage style with its thick plates and rounded edges, Retro is in harmony with the emblematic design trends of the 20th century.

FINISHES

ESSENTIALS



Matt black

Satin white

Bronze

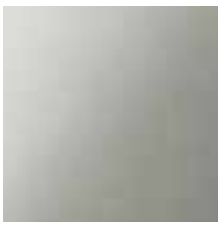
LEAF FINISHES

Gold leaf



Palladium leaf

(1) Only for Memoire style for european standard
(2) Only for Epure style
(3) Only for Epure and Retro styles

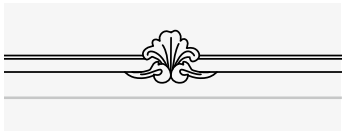
Customised finishes: please consult us.
Colours and surface appearance may vary due to the artisan manufacturing process.

DECORATIVE TRIMS

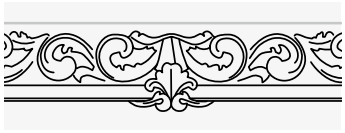
CHASED TRIM

Created by intaglio engraving of a decorative pattern around the rim of the plate.
Two types of chasing are available, only for the Epure and Fusion styles.

Chasing



Simple:
elegant fillets



Elaborate:
ornate tracery

For any other profile,
please consult us.

BEADED TRIM

Created by adding raised beading around the rim of the plate.
One type of beading is available, only in Europe for the Fusion style.

Louis XV
With typical patterns from the period

MUST-HAVES

CONVENTIONAL CONTROLS

Switch, two-way switch, intermediate switch, push-button and illuminated controls, from 1 to 3 controls in one gang for toggle controls and up to 4 controls in one gang for push-buttons, roller shutter controls, etc.

Two-way switch

Double two-way switch

Roller shutter switch

ADVANCED CONTROLS

Dimmers for all loads:
- with touch-sensitive buttons for the European version
- with rotary knob for the British version

Automatic switch for all loads.

Touch-sensitive dimmer

Rotary dimmer

Automatic switch

POWER SOCKETS

2P+E French/Belgian, 2P+E German, British, USB charging sockets and sockets with USB charger type-A & type-C.

French standard power socket

German standard power socket

British standard power socket

USB type-A & type-C dual charger

British standard double power socket with type-A & C dual charger

DATA SOCKETS

Single TV, single F type TV, multiple TV such as TV-R-SAT, double RJ.

Single television socket

TV-R-SAT multiple TV socket

RJ double socket

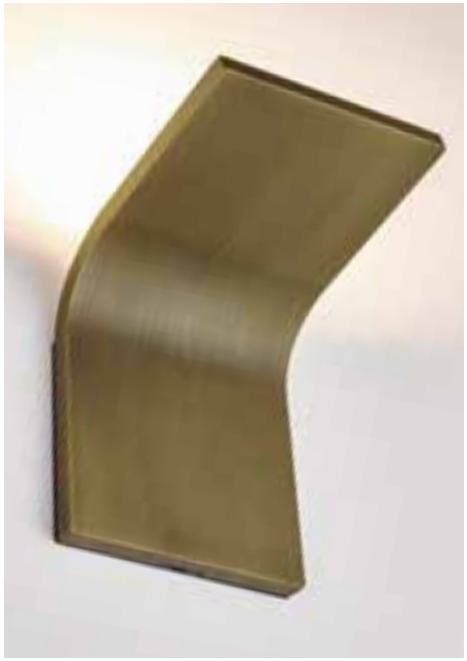
HOTEL FUNCTIONS

Keycard switch, shaver socket, room thermostat.

Keycard switch

Shaver socket

WALL LAMPS



- 9 W max. LED wall lamp
- 2 lighting environments can be selected:
  warm white 3000K/628 lm and cool white 5700K/614 lm
- Available in all finishes except crystal, Corten®, brushed brass, lacquered brushed brass, circular brushing.

READING LIGHTS

- 1 W LED reading light/Warm white 3000 K/110 lm.
- For installation in the bedhead; provides directional lighting.
- 30 cm flexible cable covered with black or grey fabric.
- Button can be positioned on the left on request.

HOME AUTOMATION

For greater convenience, Art d'Arnould incorporates MyHome home automation system functions such as: light controls, shutter controls, scenario controls and thermostats.

Switch

Scenario control

Thermostat

KNX

MyHOME automation

BRINGING TECHNOLOGIES TOGETHER

5-24 V extra low voltage push-buttons can control home automation systems by means of smart meters at the back of the box from the Legrand Group and also from non-Legrand manufacturers.

ADD FINISHES TO TECHNOLOGICAL SOLUTIONS

The Art d'Arnould teams can also add finishes to Legrand Group technological solutions.

To integrate any other technologies in the Art d'Arnould range: please consult us.

VANTAGE

CONFIGURED

The whole range is available by combining:

- the style
- the plate finish from our finish chart
- the functions to be integrated with their options for different designs or finishes in the table of proposed standard functions
- the plate integration format available as standard.

Customise controls with predefined markings or backlit engraving.

Backlit engraving

ART D'ARNOULD COLLECTION

A simple range restricted to certain styles with functions that meet everyday needs, comprising finished products that can be found in the catalogue.
All Collection items are supplied singly.

Refer to the catalogue pages available from page 30 to 39 for european standard and from 50 to 53 for british standard.

BESPOKE

Availability: please consult us

Combine a style with a finish, a function, or customise controls with laser marking, engraving, a pictogram, coat of arms, a logo, a picture supplied as an illustration or other format, etc. This requires a feasibility study by the design department in order to validate and integrate non-standard functions.

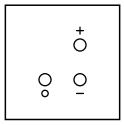
ECO-DIMMER

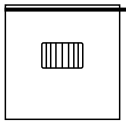


2-wire eco-dimmer without neutral	67419	67919	67819	67619	67519	67719	67319

Used for control and dimming of all lamp types:
- Dimmable LEDs: 3 W to 75 W (and/or 10 lamps max.)
- Dimmable compact fluorescent: 3 W to 75 W (and/or 10 lamps max.)
- ELV halogen with ferromagnetic or electronic ballast: 3 VA to 400 VA. 230 V halogen: 3 W to 400 W
- Fluorescent tubes with ballast: 3 VA to 200 VA
- Incandescent: 3 W to 400 W

Used in different modes: dimming, pre-set levels (0%, 33%, 66% and 100%) and nightlight mode (dimming down of the lamp for 1 hour). Incorporate the dimming level memory function: the light comes on at the lighting level set prior to the last switch-off. Gradually switch the light on and off (2 seconds).
Can be combined with one or more non-illuminated push-button, each push-button then has the on/off and dimming functions

LIGHTING MANAGEMENT SENSOR



2-wire lighting management sensor without neutral	67460	67960	67860	67660	67560	67760	67360

Power accepted by lamp type:
- LEDs: 3 W to 100 W
- Compact fluorescent: 3 W to 100 W
- LEDs, CFLs, halogen, fluorescent tubes with ferromagnetic or electronic ballast: 3 VA to 250 VA
- 230 V halogen, incandescent: 3 W to 300 W

Possibility of installing up to 3 sensors in parallel. Time delay setting from 10 s to 10 min. Light level threshold setting from 5 Lux to 1275 Lux.
Standby consumption: 0.02 W

INSTALLATION

INFORMATION

Only install Art d'Arnould wiring accessories indoors.
Art d'Arnould wiring accessories can be installed in wet areas in volume 3. IP21 – IK02 products.

Install Art d'Arnould wiring accessories on perfectly flat, dry surfaces.

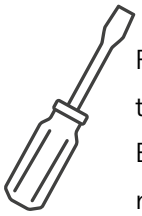
Install Art d'Arnould wiring accessories on flush-mounting boxes for which recommended dimensions can be found on page 15 for European standard and on page 41 for British standard.

Check that the flush-mounting boxes are perfectly embedded in the wall and the fixing screws are properly aligned.

For the Memoire style, the flush-mounting boxes should be installed with the fixing screws inserted vertically for European standard and horizontally for British standard. The plates must be earthed.

Keep the protective covers* on the mechanisms during installation.

Use appropriate tools to install the wiring accessories:



Flat screwdriver 4 mm wide/0.8 mm thick for mounting MEMOIRE, EPURE, FUSION and RETRO mechanisms.

**Protective covers available for Epure, Retro and Fusion styles.*

CARE

Do not use harsh or abrasive cleaning products.

Do not use detergents or corrosive cleaning products.

Use a soft dry cloth to clean the plates.

During decorating work subsequent to installation of Art d'Arnould products, it is extremely inadvisable to protect the wiring accessories by covering the plates with masking tape, as the glue could damage the decorative finishes beyond repair.
We strongly recommend that you take down the wiring accessories.

HOW TO ORDER
CONFIGURED / BESPOKE

1 SELECT THE INSTALLATION BOX STANDARD (tick the box corresponding to your flush-mounting box standard)

☐	European	☐	British

2 SELECT THE STYLE (code to be added to the form on the pages hereafter)

0	Memoire	2	Epure	3	Fusion (Chamfered)	8	Retro
1	Crystal Memoire			4	Fusion (Grooved)		
				5	Fusion (Simple chased)		
				6	Fusion (Elaborate chasing)		
				7	Fusion (Beaded)		

3 SELECT YOUR PLATE FINISH (code to be added to the form on the pages hereafter)

NM	Matt black	AB	Brushed steel	AC	Mirror steel	B	Bronze	AM	Hammered steel	ORB	Brushed rose gold	FO	Gold leaf
BS	Satin white	LBV	Lacquered brushed brass	AS	Satin steel	OM	Mirror gold	C	Corten® steel	CFB	Brushed gunmetal	FP	Palladium leaf
OB	Brushed gold			ABC	Circular brushed steel	OS	Satin gold			CFBC	Circular brushed gunmetal		
						OBC	Circular brushed gold
